## My Strengths:

**Standard II: Creates/Maintains Learning Climates**

I have much background with children and I work with them often. One of my strengths is that I love to work with children and am able to create an environment that is fun and educational. I try to provide an opportunity for each child to excel. This strength allows me to design an environment in which each child learns to work with others and gain respect for one another and adults.

## My Areas for Professional Growth:

I would like to expand my knowledge of diverse cultures and how to include that data into my classroom.
Plan For Professional Growth

**OBJECTIVE:** Expand my knowledge to develop a multicultural classroom.

**STRATEGIES TO ACHIEVE OBJECTIVE:**
A. Search the Internet and library resources for lesson plans that include multicultural issues and cultural content.
B. Schedule guest lecturers for the classroom that are of various ethnicities and cultures.
C. Read and present articles of opposite cultures and ethnic groups to provide students with up-to-date information on multiculturalism.
D. Use Arts and Humanities related material to further the knowledge in different aspects of the children’s education.
E. Visit classrooms where multicultural teaching is evident.

**ASSESSMENT:**
A. Record ideas from conferring with veteran teachers on what skills and tools I could use to benefit my objective.
B. Keep a record of the information, websites, and books that I find to be of assistance.
C. Keep a record my progress on successful lesson plans on this topic.
D. Create a list of things that I would like to include as teachable material in a journal.
