**Actions-What I will do and the assistance I will need:**
- I will review books containing multicultural information pertaining to teaching.
- I will make note of cultural differences in learning, attitudes, and behaviors.
- I will do more in-depth research for the larger minority populations in our country using the internet.
- I will confer with families considering the needs of their children and gather any pertinent cultural information from them.

**Assessment- What I will do to measure if the objectives are achieved**
- I will compare my instructional techniques before and after this research.
- After provisions are made in the instructional techniques, I will evaluate their effectiveness by tracking progress of the student.
- I will clarify my understanding and improvements with the family.
